Slim, lightweight design, and low wattage CPU combined in a 20” widescreen display make V20 an attractively designed all-in-one PC with performance levels to meet today’s technology needs. VESA mounted or used with the integrated stand, V20 can be installed in a variety of space-constrained environments.

Optional PCAP multi-touch enhances use and functionality. Integrated multimedia features, such as the webcam and 3-in-1 card reader help to support digital creativity.

V20 offers all these features and more at a budget-friendly cost.
